Introduction to the Poet

ROBERT HERRICK

- Robert Herrick is considered a cavalier poet, one of the followers of Charles I.
- Coming from a middle class background, he enjoyed the patronage of several noblemen and was thus welcomed into court gatherings.
- Herrick's poetry not only provided him with needed income from his patrons, it also made him a part of the courtly social and literary circles.
- After becoming an Anglican clergyman, Herrick served as chaplain to a high-ranking courtier.
- Soon after King Charles I appointed him vicar of a church in Exeter, far from the social and literary life Herrick loved in London. After the execution of Charles I, Herrick lost his position as vicar under Cromwell's rule and returned to London where he concentrated on publishing his poems. When Charles II was restored to the throne, Herrick's job was also restored, and he spent the rest of his life as a vicar in Exeter.

BIODIVERSITY

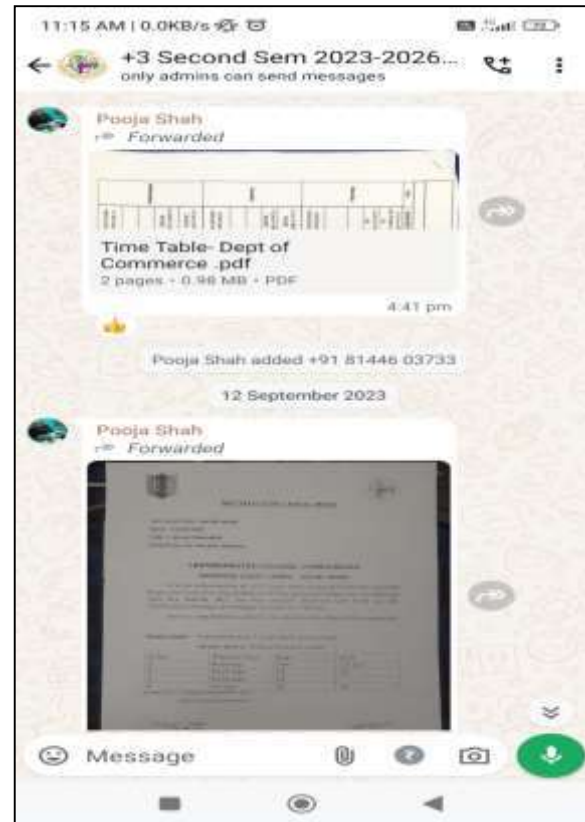

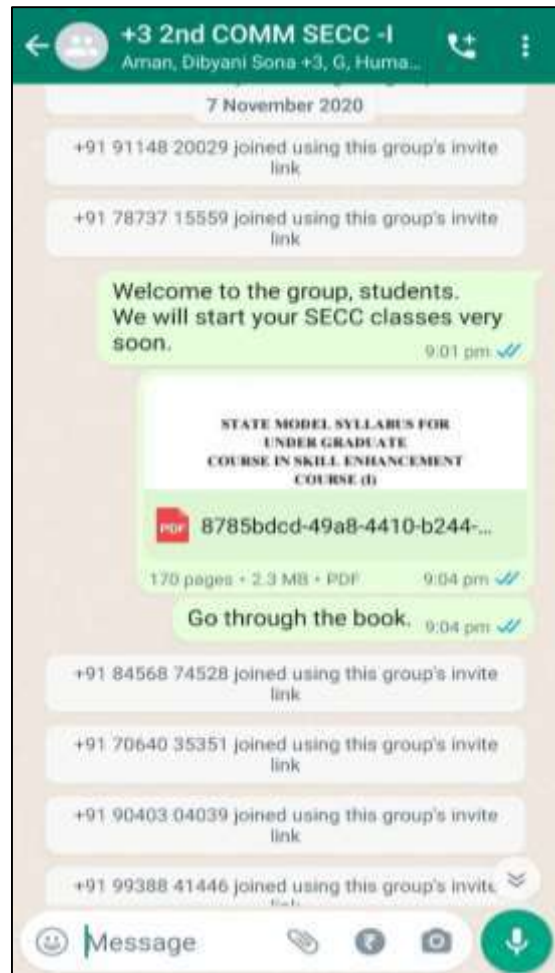

- Biodiversity or (bios-life and diversity-forms) can be defined as the vast array of microorganism , algae , fungi , plants and animals occurring on the either in the terrestrial or aquatic habitats and the ecosystem in which they exists. The concept was developed in 1980 and was coined by W.G Rosen in 1985.
- NEED OF DIVERSITY:**
 - There is a need of understanding the concept of interaction among the organisms in the same ecosystem
 - Gives a broad and scientific and logical approach to protect environment as well as understand it.
 - It has vast application in Environmental studies and genetics as well.

POLICY DOCUMENT ON E- GOVERNANCE

(2018-19 to 2022-23)

Introduction: The implementation of E-governance in educational institutions involves the use of information technology to enhance the efficiency, transparency, and accessibility of administrative processes and services. This can include areas such as admissions, examinations, student and staff records, financial transactions, and communication. E-governance policies typically outline the objectives, principles, and guidelines for using technology to improve governance methods.

Objectives:

1. Implementing e-governance in all college-related operations.
2. Improving the college's efficiency in operation.
3. Encouraging responsibility, openness, and empowerment.
4. Encouraging paperless documentation
5. Enabling quick and simple information access.
6. Improving the area of admissions, examination, students' and staff record, and financial transactions

Adopted Policy:

1. It is decided to adopt and implement e-governance in all activities of college operating in order to provide easier and competent structures of governance within the college.
2. The college has already started using e-governance in a number of areas, including admissions, the library, academics, examination, and accounting. However, it has been decided to implement e-governance in a few additional areas of the College.

Areas of e-governance:

The college has embraced e-governance in various areas, including administration, admission, finance, library automation, examinations, sharing information through social media and college website.

The Government of Odisha has adopted several initiatives in the field of e-Governance in higher education as in other departments for smooth administration. Our institution has been a part of it.

Student Academic Management System (SAMS), Government of Odisha (<https://www.samsodisha.gov.in/>) is an integrated portal which provides a common platform for admission into various courses across the State through **e-Admission** and also several **e-Services** to students at institution level through **e-Administration**. Besides e-Admission, SAMS also maintains the academic and financial records of each student admitted into the different educational institutions.

SAMS provides the best ERP system that helps the institution to

- Manage all admission and administration processes online.
- Manpower required by the Institution to manage admission and administration processes considerably reduced.
- Institution admits meritorious students from across the State owing to the single online process.
- Workload reduced due to the automation of processes like admit card, RoM, Registration card, Form fill-up etc.
- SAMS maintains the year wise students' information database, helping the institution access the information easily.

The affiliating University, i.e. Sambalpur University's (<https://www.suniv.ac.in/>) e-Governance model aims at delivery of Government services and information to its various constituencies using powerful electronic means. They use Information Technology (IT) to facilitate efficient, speedy, transparent and proactive processes for disseminating information to the public, businesses, employees and other agencies. It is a powerful medium to deliver services and perform day-to-day administration activities. Our institution is linked with it through the e-governance tools for students' registration, conduct of examination, publication of results and other services.

To foster seamless communication, the college encourages electronic connectivity among its staff, including administration, faculty, and students. Popular tools such as WhatsApp, Telegram, Zoom, and Google Meet are utilized for instant messaging and video communication. For smooth administration, the College has created an official Whats App Group, by which all the notices and official letters have been shared. All departments have their Students' Whats' App groups as well as Alumni Groups. The popular e-platforms have been used to conduct online classes, seminars, celebration of commemorative days and official meetings. During and after COVID, it has been made a policy to use the above platforms and social sites for teaching learning, co-curricular and extra-curricular activities. The communication has been done with the students and public through College YouTube channel, Facebook, Instagram, Twitter and LinkedIn. All official communications are done through emails.

Staff attendance is monitored electronically through secure biometric systems, ensuring accuracy and preventing tampering. The face biometric system with a software called IVMS-4200 has been installed and maintained by a vender called 4U Solutions, Jharsuguda.

The college website, acting as the hub for e-governance initiatives, is diligently maintained and regularly updated. Efforts are made to promptly restore its functionality in case of technical issues. The official website link is <https://Incollegejsg.org/> .

- The college's financial transactions are managed through CAPA (College Accounting Procedure Automation) software, with Excel sheets and Tally software utilized as the accounting software.

CAPA was introduced by the Government of Odisha as a pilot project. Week long training cum workshop programme on pilot implementation of CAPA (College Accounting Procedure Automation) project was organized for the Principal, Accountant and Accounts Bursar of Non-Government Aided Colleges under Govt. of Odisha from 30th January 2016 to 9th February 2016 at KOEL Campus of KIIT, Bhubaneswar, Odisha in presence of officials from Finance, Directorate of Local Fund Audit and Higher Education Department, Govt. of Odisha.

All the information relating to Financial transactions are stored in CAPA Portal <http://capaodisha.nic.in/>), which is useful for us to maintain day to day financial transactions and preparation of accounts related documents to meet audit requisites.

The benefits of the teaching and non-teaching staff are properly taken care of through the portals of PIMS (Personal Information Management System), Odisha, HRMS (Human Resource Management System), Odisha, IFMS (Integrated Financial Management System), Odisha , EPFO (Employees Provident Fund Organisation), India, ESIC (Employees State Insurance Corporation), Odisha, Income Tax Portal, etc.

Disbursal of staff salary and pension benefits are done through the State treasury. Other payments and day to day transactions are done in online mode. SBI net banking through YONO has been a good practice in the college which saves time and manual monotony.

The college Library has been automated since 2016 by a vender called SEES PL, Bhubaneswar. The Annual maintenance has been done by it. The teachers and students are oriented regarding the use of digitized library resources and e-learning tools. Information regarding e-resources are given through the College website. (<http://Incollegejsg.org/CMS/Proceding/f568ed12-f21a-42e5-9ad4-19c39e66a72ae-Library%20resources%20Information.pdf>)

The college website offers facilities for alumni, including registration, updates on college activities, feedback options, and related information.

The college examination process is automated through an exclusive examination portal provided by the affiliating university. This ensures confidentiality in the delegation of work, data entry, and processing. The College is a nodal centre of the Private examination Cell of Sambalpur University. (<https://pec.suniv.ac.in/centres-for-examination.php>)

The College has been a Study Centre of Odisha State Open University (OSOU). It provides necessary help to the students for distance education as per the guidelines of OSOU.

The College has a manual of Code of Conduct that the students, faculty and other stakeholders can access from the college website and by which discipline is maintained in the campus. (<http://lncollegejsg.org/CMS/Proceeding/4cb8a8a5-8ef3-485a-a91c-96476ff0df52Manual%20on%20code%20of%20conduct%20%20and%20human%20and%20professional%20Ethics.%20LNC.pdf>). It has a policy of Grievance redressal. The students and staff can submit their grievance online, which have been redressed with proper mechanism. There is the provision of online feedback collection from students, faculty, parents and alumni managed through college website (<http://lncollegejsg.org/feedbackall.aspx>)

The college has wi-fi connectivity, BSNL broadband connections, due to which all the e-services are efficiently done. All the members concerned in the charges of the above e-governance activities have been trained from time to time. The government of Odisha updates the functionaries by conducting periodical trainings and orientations. The College, being the Nodal College of the district, organises and facilitates the trainings of the staff members of other colleges.

Budgetary Allocation:

The College shall have budgetary provision towards the expenses for e-Governance annually. The focus of the budget earmarked for e-Governance shall be on capacity building, e- services and providing all infrastructure support for the same.

A Technical team (Audit and Maintenance of e-Gadgets) is appointed to handle the technical issues related to digital online operations of the college.

This policy has been revised recently with certain updated information.
